## Product Description

Kumo, meaning clouds in Japanese, is all about organic shapes unfolding above you.

Created from brass plated metal pipes with fitted acrylic tubes, the light diffuses a warm ambience through the space. Bended in various sharp angles, the Kumo Chandelier pushes the boundaries of lighting design with its bold organic shape, becoming the lamps signature. Carried in a brass circle like a piece of jewellery, the lamp emphasises a certain lightness and ease.

The Kumo Chandelier incorporates an inbuilt LED light. This series highlights the luminous white acrylic tube that encases a durable LED light source, boasting an impressive 25,000 hours of illumination at a warm Kelvin 2400. Shifting away from the starkness typically associated with neon, these innovative lamps exude a warmer, more inviting glow, setting the ambience for a cozy and comforting atmosphere.

The Kumo Chandelier brings a sculptural, cloud-like presence to any room. Its organic, airy form works beautifully over dining tables, in living areas, or entryways, adding both light and visual drama.

The handcrafted design of the Kumo Chandelier ensures that light distribution uniquely cascades along its curvaceous tubes, resulting in it to shine brighter in some part of its curved tube. Suspended by one fabric cable, the chandelier can be set to the perfect height for any room.

## Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

## Family Description Text

Maru, named after the Japanese word for circle, is a meditation on form and light. Inspired by the purity of minimalist art, it captures the endless elegance of the circle, an eternal shape without beginning or end.

Two finely crafted aluminium rings define the design, their inner edges glowing with a warm halo of LED light. Within this quiet geometry, a subtle joint allows the inner circle to turn inside the outer one, giving Maru a sense of movement, like orbits shifting in space.

Singular, it hangs as a luminous sculpture, serene and iconic. In multiples, it becomes a constellation, a playful choreography of circles in dialogue with one another.

Balancing geometric clarity with a gentle radiance, the Maru Collection transforms light into poetry. It is timeless, versatile, and endlessly expressive, an ode to the beauty of simplicity.

## Color Description

Hand Brushed Brass has a golden metallic tone that resembles gold but with a softer, more muted character. Fine brushstrokes create a silky matte surface, reducing shine and adding depth and movement. The result is a warm, elegant finish that feels both timeless and contemporary.

### Maintenance Guide Description

Our lights crafted in hand-brushed plated aluminium with acrylic tubes combine tactile warmth with luminous clarity. To preserve their beauty and ensure lasting quality, regular and gentle care is essential.

The hand-brushed plated aluminium should be cleaned with a soft, dry microfiber cloth to remove dust. For deeper cleaning, use a slightly damp cloth with mild, pH-neutral soap, wiping gently along the direction of the brushing to maintain the surface's subtle texture. Avoid abrasive pads, acidic solutions, or metal polishes, as these may damage the plated finish or alter its refined appearance.

The acrylic tubes require equally careful maintenance. Dust regularly with a soft microfiber cloth, and if necessary, clean with warm water and a small amount of mild soap. Dry immediately with a clean, lint-free cloth to preserve their luminous clarity. Do not use alcohol, solvents, or abrasive cleaners, as these can cause scratches or clouding.

Always switch off and unplug the light before cleaning, and avoid exposing the finishes to excessive humidity or direct water contact. With simple, consistent care, the hand-brushed plated aluminium will retain its crafted elegance, and the acrylic tubes will continue to radiate their soft, glowing presence ensuring your lamp remains timeless for years to come.

### Materials Description

Our lights combine the tactile refinement of hand-brushed plated aluminium with the luminous clarity of acrylic tubes. The aluminium is plated in carefully developed finishes, then brushed by hand to create subtle variations in tone and texture details that make each piece unique. Its surface carries both resilience and warmth, a crafted metal elevated by human touch.

In dialogue with this, the acrylic tubes introduce a sense of lightness and radiance. Their crystalline transparency captures and diffuses light, softening the solidity of metal with a glowing clarity. Together, the two materials create a balance of strength and luminosity, weight and air, precision and atmosphere.

The result is a composition where crafted detail meets ethereal light lighting that is as much sculpture as function, designed to remain timeless in both expression and presence.
