Maintenance Guide Description

Our lamps finished in Chrome (Cr III) are crafted to reflect light with a mirror-like brilliance. To preserve this clarity and ensure lasting quality, regular and gentle care is essential. The surface should be wiped with a soft, dry microfiber cloth to remove dust and fingerprints, and for deeper cleaning a slightly damp cloth with mild, pH-neutral soap may be used, followed by immediate drying with a clean, lint-free cloth. Avoid abrasive pads, acidic solutions, ammonia-based cleaners, or strong detergents, as these can scratch the surface or dull its mirrored finish. Always switch off and unplug the lamp before cleaning, and keep it away from high humidity or direct water contact. With simple, consistent care, the Chrome (Cr III) finish will maintain its liquid-metal clarity and sleek, modern presence, ensuring your lamp remains striking and timeless for years to come.

Materials Description

The chrome finish combines technical precision with modernist clarity. Using Decorative Trivalent Chrome Plating (Cr III) on aluminium, the surface is polished to a mirrored brilliance that reflects its surroundings with sharp precision. Sleek and striking, it serves as a counterbalance to textured finishes, capturing light and form like liquid metal while embodying the clean lines of contemporary design.
